NEW SINGLE SLOPE LASER SYSTEM

OKLAHOMA CITY, OK – October 24, 2012 – Futtura introduces the new LT-810 single slope laser system.

The LT-810 is an affordable, automatic true self-leveling single slope laser. It is rugged, reliable, and accurate. It is designed for any level or sloped application; grading and excavating, concrete floors and footers, parking garages and ramps, site preparation and dirt grade, etc.

“We challenged them to design a single slope laser and they really rose to the challenge with this product,” said Steve Delaney, Futtura’s Business Unit Manager. “We are excited to add it to the Futtura Brand Products.

LT-810 Features Include:

- ✓ Automatic self-leveling in level & slope mode
- ✓ Height of instrument alert (HI alert)
- ✓ Long 2,000 foot operating diameter
- ✓ Machine control compatible
- ✓ 635nm visible red beam

About Futtura Tools & Technology

Futtura Tools & Technology began operations in Dallas, Texas in 1999. The goal was to distribute high quality laser and optical survey equipment to dealers across the United States. Today Futtura stands as an established distributor for premier instrument and equipment manufacturers. We strive to offer exceptional customer service and are committed to meeting our customer’s need for quality products delivered at a profit generating cost. A core value of ours is to do more than is expected. We actually mean what we say and will do what we say. When you call us you will talk to a real person who will do everything possible to take care of your situation. We are continuing to position our company to take advantage of the opportunities to help our dealers grow their businesses. To learn more about our products and services go to www.futturaus.com or call us at 1-877-399-9900.
